Education

Vellore Institute of Technology, Bhopal <i>B.Tech in Computer Science Engineering (AI & ML)</i>	CGPA: 9.05 <i>Sep 2023 – Present</i>
Jankidas Kapur Public School, Sonipat <i>Higher Secondary Education (CBSE)</i>	93.4% <i>2021 – 2023</i>
Jankidas Kapur Public School, Sonipat <i>Secondary Education (CBSE)</i>	97.4% <i>2019 – 2021</i>

Technical Skills

Languages: Python, C++, C, Java, HTML, CSS, SQL

Machine Learning: Scikit-learn, TensorFlow, Neural Networks

Data Science: NumPy, Pandas, Matplotlib

Cloud: AWS, Microsoft Azure

Tools: Git, GitHub, MATLAB, Simulink, MySQL

Projects

Amazon Website Clone <i>Web Development Project</i>	<i>HTML, CSS</i>
– Built a responsive clone of Amazon’s e-commerce interface – Designed product pages with interactive UI elements	
Job Recommendation System & PDF Annotator <i>NLP Team Project</i>	<i>Python, NLP, ML</i>
– Developed an NLP-based job matching system for resumes – Implemented PDF parsing and skill extraction	
Smart Irrigation Using Machine Learning <i>Machine Learning Project</i>	<i>Random Forest</i>
– Achieved highest accuracy using Random Forest classifier – Identified key water quality factors such as nitrate and pH	

Experience

Core Member – Photography Team <i>VITB Model United Nations (MUN)</i>	<i>Apr 2024 – Apr 2025</i>
– Managed photography and visual documentation for MUN events with 100+ delegates – Coordinated with committee heads to capture key sessions and formal proceedings – Designed social media creatives that increased event engagement	
Semi-Finalist – SOLVIT Hackathon	<i>Mar 2025</i>
– Developed NOqueue, a smart web-based queuing management system – Implemented real-time queue tracking for hospitals, banks, and retail stores	
Participant – Smart India Hackathon	<i>Sep 2023</i>
– Built an AI-powered learning platform to curate and rank educational YouTube content	

Certifications

Cloud Computing — NPTEL (Virtualization, Cloud Architecture, IaaS, PaaS, SaaS)

Azure Data Fundamentals (DP-900) — Microsoft (Core data concepts, relational and non-relational data, Azure services)

Generative AI Foundations — Oracle (Prompt engineering, LLM concepts, AI applications)

Applied Machine Learning with Python — Coursera (Supervised learning, model evaluation, Scikit-learn)

Simulink Onramp — MathWorks (Model-based design, simulation, system modeling)

Fundamentals of Artificial Intelligence and Machine Learning — Vityarthi (AI basics, ML algorithms, real-world applications)
